

JANUS 30-I

JANUS 30-II

The elegant Janus wall light uses advanced electronic and optical technology to produce a lighting concept that is a totally unique lighting solution both in design and performance. By combining the latest novel Light Pipe optical and digital light engine technology, wall lighting can now move on into the 21st Century.

With ageless classic proportions the Janus Series represents a no compromise replacement for existing hot, inefficient and ugly wall lighting.

Janus SERIES in common with all our LED lighting is digitally controlled for precise light control.

JANUS 30-1 SPECIFICATION

Mechanical

Case material	Aluminum
Case finish	Stove paint finish
Diameter	33mm
Length total	225mm (75mm optic + 150mm body)

Optical

Type	LP Light Pipe technology
Luminous Flux (total)	405 Lumen
Colour	Warm White 3000 deg K
Light Maintenance	>70,000 hours
Ultra-violet emission	Zero

Electrical

Power dissipation	4.5 watts (maximum @ 100% duty)
Voltage	24VDC
Driver	Internal constant current switch mode with digital control
Control	Digital via digital 'S' wire
